8 POWERFUL WASHING PROGRAMS

-  Eco (Standard Program)
-  Smart 60 - 70°C
-  Steam Wash
-  Hygiene 70°C
-  Super 50 min 65°C (Quick Clean)
-  Dual Pro Wash 60°C
-  Quick 30 min 40°C
-  Mini 14 min (Jet Wash)

Jet Wash

With this fast program, you can clean the dishes like less and/or recently soiled (coffee, milk and tea etc.) in only 14 min. This program is one of the fastest programs in the world. It cleans your dishes with 4 place settings capacity in 14 min.

DualPro Wash

Advanced pump technology allows for one wash to be cleaned at two separate water pressures. Baked on food does not stand a chance in the bottom while the delicate glasses in the top are gently being washed.

Smart Wash

Turbidity sensor detects the amount of turbidity in water and adjusts the washing cycle parameters (temperature, duration, amount of water) accordingly.

Steam Wash

Steam wash technology softening the most stubborn dirt by steam power. High temperature and directly applied steam ensure perfect hygiene and gentle cleaning for your sensitive dishes.

PLUS 3 EXTRA FUNCTIONS

Extra Dry

For better drying performance, MEX dishwasher provide extra drying function which it increases water temperature at final rinse step and drying step duration up to 10 minutes.

Extra Silent

It is possible to have more silent washing with variable speed motor technology. Extra silent function decreases noise level of program without decreasing cleaning quality in day or night time when silence is required.

Extra Fast

Extra fast function decreases program duration while it is increasing water temperature and pressure to ensure high washing quality in a shorter duration.

ion TECHNOLOGY

MEX dishwasher are engineered to the high standards with high technology. Natural Ion Tech spreads negative ions inside the dishwasher. These negative ions neutralize particles of unpleasant smell. Natural Ion Tech removes odors caused by dirty dishes.

FULLY INTEGRATED BUILT IN DISHWASHER LVB6533

OFFERING MORE EXCELLENT OPTIONS

Half Load

Eco Friendly Half Load technology provides washing performance when dishwasher is not fully loaded, only lower basket or upper basket or both are used. It can run with reduced water and energy consumption. Half Load technology saves energy and water reducing energy and water consumption due to load options.

Delay Timer

The start time of a program can be delayed, e.g. to benefit from economy rates of electricity. A delay start time of between 1 hour and 19 hours can be selected.

HIGH CAPACITY

With full capacity as 13 place settings, you can easily load the dishes for the entire family. Adjustable baskets and foldable racks help customize the capacity which means more dishes can be placed.

FLEXIBLE BASKETS AND RACKS

The ideal place settings for every need is complete in this dishwasher.

The Lower Basket is more comfortable with folding racks on it that each section can be folded separately. They give more room inside the washing compartment that enable placement for large items such as pots and pans.

The Upper Basket is easily adjustable with 3 step level height to maximize space when washing tall items. There are also adjustable mug selves making more flexibility to fit tall glasses, mugs and smaller cups.

The 3rd Rack provides perfect extra space for loading utensils, cutlery and silverware. It is composed of two pieces which can be taken out left or right part of the 3rd rack to obtain more space for the dishes in the upper basket.

	Upper Basket Position ↓	Upper Basket Position ↑	w/o height adjustment
